If you like the D's, here you can have a lot of them straight in your face.. So, I got this game for like \$1. It's an absolute joke of a game and really only good in a party or joke situation. It's some flying\2665\2665\2665\2665\2665\2665s, so just know you're gonna get dicked if you spend the full price.

Overall it's hilarious and fun, but not worth the full price.

There is a variety of items to block the\2665\2665\2665\2665\2665though, and that makes it fun. Extra points for blasting a red rocket back into an enemy.

Buy it if it's on sale or you want to get a laugh with friends.
